KULTURA I UMETNOST / CULTURE AND ART

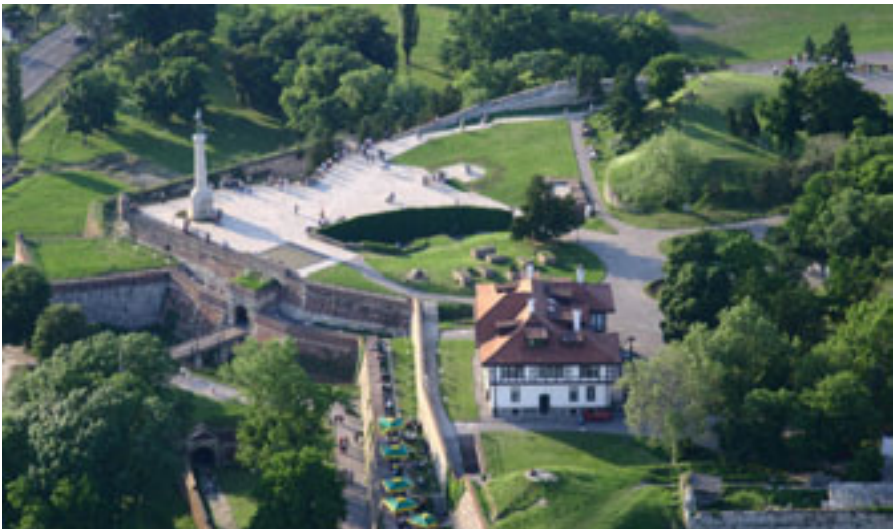

Beogradska tvrđava i Klemegdanski park / Belgrade fortress and Kalemegdan park

Beogradska tvrđava podignuta je na grebenu iznad ušća Save u Dunav u razdoblju od I do XVIII veka kao kompleks odbrambenog karaktera. Tvrđava je danas svojevrsan muzej istorije Beograda. Ovu celinu čini sama Beogradska tvrđava, podeljena na Gornji i Donji grad i park Kalemegdan.

Najlepši i najveći beogradski park, Kalemegdan je istovremeno i najznačajniji kulturno-istorijski kompleks. Naziv Kalemegdan odnosi se samo na prostorni plato oko Tvrđave koji je osamdesetih godina 19. veka pretvoren u park.

The Belgrade Fortress was built as a defensive structure on a ridge overlooking the confluence of the Sava and the Danube during the period from the 1st to the 18th century. Today the fortress is a unique museum of the history of Belgrade.

Kalemegdan, the most beautiful and largest of Belgrade's parks is also the most important historical location. The name of Kalemegdan relates to the wide plateau around the Fortress which was converted into a park in the 1880's.
